

BTCBMC - Bitcoin But Made in China

BTCBMC (Bitcoin But Made in China) is a meme token built on the Solana blockchain, offering a new alternative that connects people worldwide. It emphasizes transparency, fast transactions, and a community-driven decentralized approach, free from control by any central organization or authority.

1. Introduction

BTCBMC is a meme token created to reflect diverse cultures and ideas through the power of blockchain technology. Built on Solana, it offers fast transactions, low fees, and heightened transparency.

The primary goals of BTCBMC include:

- Building a strong community with global recognition.
 - Empowering individuals interested in contributing to the token's growth.
-

2. About BTCBMC

BTCBMC embodies the decentralized concept, meaning it is not controlled or managed by a central authority but instead grows through community support and participation.

Inspired by Bitcoin and the Theme “Bitcoin But Made in China”

BTCBMC is designed to create opportunities for Chinese people worldwide to engage in borderless transactions and exchange goods freely.

3. Tokenomics

- **Total Supply:** 1,000,000,000 BTCBMC (One Billion Tokens)
- **Fixed Supply:** No additional tokens will be minted, ensuring transparency.

Token Distribution:

- **Token Creator Holdings:** Token Creator Holdings: Capped at 5% with a minimum of 2% to ensure balanced distribution.
- **Remaining Supply:** Open for purchase by interested buyers and supporters through the market.
- **Low Fees and Transparency:** Compliant with Solana blockchain standards.

4. Vision and Mission

BTCBMC envisions creating a fair and borderless transaction system accessible to everyone worldwide.

Mission Statement:

“To build a fair system where people worldwide can engage in borderless transactions through BTCBMC and the power of the community.”

5. Roadmap

BTCBMC has clear objectives for growth and development, although the timeline remains flexible.

1. **Building a Strong Community**

Attract people worldwide to join BTCBMC by utilizing social media and other communication platforms to disseminate information.

2. **News and Marketing**

Leverage Telegram, Twitter, and various social media platforms to reach target audiences and create awareness.

3. **Exchange Listings**

Strengthen the community and enhance its reputation to facilitate BTCBMC's listing on various exchanges.

4. **Tokenomic Milestone**

- **Big Holder Milestone:** Aim for BTCBMC to reach 100,000 major holders.
- **Global Expansion Milestones:**
 - Encourage every Chinese individual to hold BTCBMC worth \$10.
 - Expand to the Asian region, encouraging everyone to hold BTCBMC worth \$10.
 - Spread globally, encouraging everyone worldwide to hold BTCBMC worth \$10.

5. **Sustainable Development**

Collaborate with the community to ensure transparent and fair growth.

Note: Achieving these goals requires careful consideration of token distribution and active community participation to align with the project's vision.

6. Key Features of BTCBMC

1. **Low Fees and Transparency:** Built on Solana blockchain standards, ensuring fast and economical transactions.
 2. **Fixed Supply:** A constant total supply ensures stability without devaluation due to additional minting.
 3. **Borderless Trading Opportunities:** Enables users to transact and collaborate beyond borders.
 4. **Community-Driven Growth:** BTCBMC's success depends on community involvement and support.
-

7. Satoshi Wu's Vision

Satoshi Wu stated:

"The creation of BTCBMC is not just about launching a meme token; it's about building a fair system where Chinese people worldwide can transact freely and without borders, using BTCBMC as the medium."

Satoshi Wu hopes BTCBMC will serve as a channel for global business and equal opportunities for all.
